## The Façade of the Building Has Changed, but the Foundation Stands

~Alan J. Hodak

I love studying and reading about history! I especially love studying about the history of our nation, its Founders, and some of the special stories that highlight our heritage. I was recently asked to review a book on the Bible and its impact on our early history. An excerpt from the Great Awakening (1725-1775) caught my interest.

During a period of about thirty years, the American colonies experienced a spiritual revival unlike any other. Jonathan Edwards and George Whitefield were mentioned as key figures. Having limited knowledge about these men, I decided to do further study. I did some research on Jonathan Edwards, a fascinating character. I remembered that in one of my literature courses in secular college, we read many of his writings. One memorable reading was his sermon, *Sinners in the Hands of an Angry God*. As I studied a bit more about his life, I found out that at the age of 13, Edwards entered Yale College and graduated from their School of Divinity. After rededicating his life to full-time service to our Lord, Edwards eventually worked under the tutelage of his grandfather, and upon his grandfather's death, took over his grandfather's church. He served there for twenty years.

His preaching was convicting as he brought the issue of sin to the forefront. Edwards always stressed a person's need to be saved. Once he established that the unregenerate in the audience were surely on their way to hell because of their sin, he would then present

the clear plan of salvation. Thousands were saved because of the truth of this message.

Yale kept coming back to mind as I further examined Edwards' life. From information I read on the web, I studied Yale University, Harvard University, and Princeton. I did not find out much about the history of each college, but I did find out that many of our early founders and leaders graduated from these institutions. Institutions which, at that time, taught God's Word and trained most of our great theologians and ministers of that day.

What I found in digging a bit further, was that the idea of the university was a Christian invention. The classical Christian university, from the medieval universities to the early American colleges, were organized around three branches of knowledge: the "natural sciences," the knowledge of the external world—including both empirical science and philosophical reflection on objective truth; the "moral sciences," the knowledge of human beings and how they should live—covering such fields as history, the

### Our Mission

*Fourth Baptist Christian School, as a ministry of Fourth Baptist Church, is committed to the development of a student's spiritual life in Jesus Christ, while pursuing academic excellence in a manner which honors and glorifies God, based on the only infallible Word, the Bible.*

(Façade, continued from page 1)

humanities, and law; and the “theological sciences,” knowledge of God to be gained from studying Scripture, theology, and the Christian life (Veith).

During the Great Awakening, theology was considered to be the basis—the foundation—by which all other truth was derived. Since God held together the foundation and everything else was built upon it, early universities used a strong biblical foundation in teaching all subjects.

Obviously, things have changed over time. I graduated from a secular university that had its roots in the teaching of education. The Bible was taught there as well, in its early years, as in most secular schools of that day. As a Christian, I am embarrassed by many things that have come out of that college today, but I can remember sitting in the class, *Biblical Backgrounds of Literature*, in which I was taught fallacies with regard to the Bible. I was a new Christian at the time and I remember, with limited knowledge of the Word, arguing with the professor because he attacked the very foundational truths that I had learned from my pastor. My professor had his theories and I had the truth of the Word of God.

The impact of our universities on academia is far reaching. Most of the Baby Boomers (my generation—I’m dating myself) experienced Bible teaching and prayer in the public school

they attended as elementary students. Today, objective truth has been thrown out the window to allow for incredibly twisted ways of looking at our world. Add to this the liberal political educational agenda that our culture is being forced to learn, and the outcome now is that “universities once devoted to the pursuit of truth are, ironically, the very institutions that are denying there is any such thing” (Veith).

We are seeing today in our Christian colleges and many churches, that doctrine and biblical principles are no longer clearly stated. These issues are up for discussion and debate, and multiple views are accepted. The prevalent tendency of our culture is to stray far away from our biblical heritage. What has happened to schools like Yale, Harvard, and Princeton could very well happen to many churches and Christian schools in our day. Satan is busy causing confusion

and spreading lies about the truth of the Word of God. The ministry of our school, and schools like ours, is serving a critical role in the education of our children. Despite the outcome of elections and the various popular trends of our nation and culture, God’s Word will continue to flourish in the minds and hearts of the people who are open and willing to receive it. We must never minimize the importance of a Christian education and we must prioritize the inclusion of the Word of God in our everyday lives.

God’s people, who are surrendered to God’s Word and filled with God’s Spirit, will yield the fruit of the Spirit in the eyes of a needy world that is desperately looking for answers. Only God’s Word has the answers. Your children, equipped with a biblical education received from their home, church and school, will be the ones who carry on the biblical heritage of our nation.

The façade of the building will continue to change and look different from generation to generation, but the solid foundation of God’s Word will always stand.

---

Veith, Gene Edward. “Can We Recapture the Ivory Tower?” *World Magazine*, Oct. 1999.

# Varsity Girls Win Back-2-Back State Volleyball Championships

What a sweet gift this season was, as we not only saw much success on the court, but we also made wonderful memories and grew spiritually as a group. On the court, the girls only lost two times, ending the season 24-2. Interestingly, in every one of the 24 match wins, we never lost a set. We took first place at the St. Francis tournament and second at both the Faith Spikefest tournament and our own Spikefest tournament. However, the disappointing loss at Spikefest fueled a determination to redeem ourselves at MACS. The girls played in a controlled, but dominating way throughout the tournament, ending with a decisive win over St. Francis to take home the first-place trophy. Throughout the season, four of our varsity girls won various honors at the tournaments we attended: Nevaeh Carlson, JoJo Rieschl, Clara Rieschl, and Alyssa Stephens.

Besides success on the court, we also enjoyed growing in Christ and making fun memories together. In our devotions this year, we studied through Colossians and were reminded of the truth that Christ is our treasure and that as we love him as our true treasure, we also embrace genuine spirituality. What a joy it was to listen to the girls discuss these truths! We also enjoyed making memories through several donut parties, Abbie's hilarious group games, ladders for champions, and much laughter and even a few tears. I'm so thankful for these girls and the time we got to spend together this season! ~Coach Becky Johnson

Warrior Awards for this season were as follows: Most Improved—Sophia Morrell and Ruby Celt; Coach's Award—Abbie Page; MVP—JoJo Rieschl

## 2022 Volleyball Captain:

Abbie Page

## MACS Volleyball Honors:

- 1st Team All-Conference:

# Varsity Soccer Wrap-Up

This season was a mix of both highs and lows for the boys' soccer team. When the season started, the team experienced a lot of success. The team played well to start off the year, winning all their games at the Rosemount Jamboree for the first time in several years. The season progressed steadily, leading into the Faith Baptist soccer tournament in Ankeny, Iowa. The team played very strong defensively in each of the games and ended strong with a second place standing over all. The end of the season was difficult as the team struggled to find the back of the net. Although the team did not place high in the MACS tournament, it was still a great year. We say goodbye to two seniors, Landon and Adriel, and the future looks promising for Fourth Soccer! ~Coach Aaron Jones

Throughout the season, Isaac Caasi, Carsten Markgraf, and Landon Broere received honors at the various tournaments we attended. Warrior Awards this year were as follows: Defensive MVP—Isaac Caasi; Consistency—Grant Vikander.

*Pictured at right: Seniors Landon Broere & Adriel Ng. Each played various positions during the season*

## JV Volleyball

This year has been one of the sweetest years full of wonderful moments with the JV girls volleyball team. I am incredibly grateful for their commitment to play this year. As each year goes by in my coaching career, I learn how to be a better coach. I appreciate the girls' willingness to listen as well as communicate with me throughout the season.

Here's a few notable things about the 2022 JV team:

- 1) The team had a winning season with 6 wins and 2 losses. Each loss helped the girls see where they needed to learn and grow, and each win encouraged the girls to keep working hard and improving! Their best games were our final two games of the season.
- 2) The team progressed in their understanding of volleyball rotations and positions. They started in a simple 4-2 rotation, but moved to a 6-2 rotation by the end of the year. This is a huge step in understanding the game and I'm really proud of their hard work to keep learning and progressing in their knowledge of the game!

- 3) This was a fun bunch of girls to coach! I loved every practice with them as they came in smiling and ready to play. They loved to be challenged and pushed which contributed to their success. Finally, we studied the book of Colossians this year (along with the Varsity team) and worked to focus on walking in Christ, to be rooted and established in Him and to be thankful (Col. 2:6-7). My prayer is that each of the girls would continue to love our Savior most and seek to live each part of their lives to glorify our God. I believe they honored Christ this season as they genuinely displayed a spirit of unity and encouragement towards one another. I rejoice most in seeing God work in their lives and watching them grow in their faith. ~ Coach Sarah Stephens

Warrior Awards this year went to the following girls: Coachable Award—Addie Farish; Encourager Award—Anja Brombacher; Leadership Award—Megan Page

## JH Soccer

Coming into the season I knew we'd have a very strong team. The boys worked very hard in the first few weeks and were undefeated for the better half of the season. The older players showed leadership and helped guide the younger players as

they learned the game. Towards the second half of the season, they had a big loss and found themselves in a bit of a goal drought; however, they worked very hard and many of the younger players stepped up and contributed where some

of the older players were lacking. We were the top seed going into our tournament with a first round bye. Although we had a tough loss to St. Vincent in the semifinal round, we finished in third place with a strong win against St. John Paul II Catholic School. ~Coach David Migalyuk

This year's Warrior Awards: Most Improved—Lincoln Johnson; Hardest Worker—Josiah Combs; Leadership Award—Caleb Reis

## JH Volleyball Team RED

This season, the JH Volleyball Team Red had twelve sixth grade girls. Throughout the season, we worked on building positive team comradery and confidence. Each girl was very eager to begin her first season playing volleyball on an organized team. The season started on a rocky path as the girls were learning new volleyball skills and how to work together as a team. At the beginning of the season, we were working on serving and confidence to pass the ball.

Towards the middle of the season, the girls began working as a team, encouraging each other, and showing off their new improved skills as serves and passing were making it back over the net.

At the end of the season, all the girls were making their serves over and some went on several ace streaks! The girls improved their "serve receive" skills and overall confidence on the court by the end of the season so much that we won two games and lost one at the tournament,

taking 3<sup>rd</sup> place at the NSPSL Tier II bracket. Overall these girls were great to coach. They always had energy and were great at cheering from the court and bench. Every teammate improved so much this season as they learned to rely on their teammates, and above all, learned to encourage each other in wins and losses.

Warrior Awards given out were as follows: Tiegan Treptau received the MVP award, Isabelle Chuprin received Most Improved, and Samara Reese received the Leadership Award."

~Coaches Cheyenne Cottrell and Erika Infantas

JH Team RED: 6th grade team

## JH Volleyball Team BLUE

The JH Volleyball Team Blue consisted of nine 7th & 8th grade girls. I had a lot of fun with this group of girls, and we had a great season which we finished with 7 wins and 3 losses. For devotions this year, we read from a book of promises God has made to His children concerning different life struggles. Each one of the girls has improved so much over the year and I believe there's going to be a solid varsity team in a couple years. ~ Coach Lucy Litkey

Warrior Awards were given out as follows: Communication Award—Rebeka Damyan; Most Improved—Eliana Fast

JH Team BLUE: 7th/8th grade team

# Meet Our New Teachers!

*Mrs. Cheyenne  
Cottrell*

I did not recognize God's calling for me to be a teacher until I was a Spanish teacher to an amazing class of 3<sup>rd</sup> and 4<sup>th</sup> graders while a junior in High School. That same year, I dedicated my life to God, willingly allowing Him to direct my life's path. He led me to Faith Baptist Bible College where I graduated with a Bible degree and an Elementary Education degree, with a middle school endorsement.

After graduation, I taught 4<sup>th</sup>-8<sup>th</sup> grades at a small private school in Kansas City, Missouri where I had attended K-12<sup>th</sup> grade. After two years of teaching, God faithfully showed a new direction for me by opening up a new chapter here at Fourth Baptist. I look forward to teaching 6<sup>th</sup> grade where I hope to foster a biblical worldview and passion for Christ in each of my students' lives.

*Miss Jireh  
Jaramillo*

Some people can tell you exactly when they placed their faith in Jesus, but for me, like those who grew up in a Christian home, that date is a little blurry. I think for me when I was 13 years old is when I really believed the gospel and it sunk in. God reached my heart when I was 13 years old and made me realize that He wanted a relationship with me. It was a transition from learning about someone I read about in the Bible to knowing He was there all along waiting for me. I wanted to continue growing in my faith in Christ while earning a

degree, so I attended and graduated from the University of Northwestern- St. Paul, which I believe was God's will for me seeing his provision with each semester and school year. Having the opportunity to teach Spanish at Fourth Baptist is such a blessing and I truly believe God was moving when it all fell into place. My hope as a Spanish teacher is that I will stir an interest in students to want to get to know people who are different from them and be able to share the love of Christ to them.

*Mrs. Kim Morrell*

I was raised in a Christian family. I accepted Jesus as my personal savior when I was 11 years old. I knew I was a sinner in need of a savior. I attended Northland International University and majored in Elementary Education. I met my husband Matt while in college. We were married and moved to MN for Matt to attend seminary. While in seminary, Matt became youth pastor at Chisago Lakes Baptist Church. I also taught 3<sup>rd</sup>

grade at the Christian school there until my oldest was born. Matt and I have five children, three are in college and two are students at FBCS. In 2008, God led our family to Fourth Baptist Church where Matt serves as the senior pastor. In 2020, I started working at FBCS as an elementary teacher's aide and substitute teacher. Working in the school renewed my love for teaching and I am excited to be back in the classroom teaching again.

*Mrs. Maddy  
Tumlin*

I was born into a Christian family in Minnesota, grew up in Greenville, SC and just recently moved back to the Brooklyn Park area. I was saved at the age of 11 after the Holy Spirit's convicting me that I was not living the life of a true follower of Christ. I graduated from Bob Jones University in 2021 and was married to my loving husband, Travis, shortly

after. Since moving back to Minnesota, we have been involved in a growing local church, Family Baptist Church. Being a pastor's daughter, I have grown up being involved in kids ministry for as long as I can remember. I am so excited to put that experience to practice through teaching kindergarten!

## Fall Elementary Field Trips

On Thursday, October 6<sup>th</sup>, both second grade classes took a field trip together to **Fort Snelling**. It was a beautiful fall day to spend outside walking from one site to another. We started off by visiting the Visitor Center and seeing some of the displays there. Next, we walked to the Fort Snelling grounds. The first place the students visited on the grounds was the jail. It was dark and a little scary for some—of course, not the boys...they loved it. From there we visited some of the shops. The Blacksmith Shop is always a favorite with us coming away with a nail we watched the blacksmith make with the forge.

Dred Scott's quarters was another place we visited. This was where Dred Scott and his wife Harriet lived from 1836-1840, when he was the fort doctor's slave. We then made our way to the officer's quarters which is Minnesota's oldest standing private home. Another favorite part of our tour was watching the shooting of the musket. From there we moved on to the married soldier's quarters, where we learned the old-fashioned way of doing laundry!

And last, but not least, was the round tower, which is the state's oldest building built around 1820. From the top of the tower we could see a lot of the area around the Fort which included the Mississippi and Minnesota Rivers. This was a great place to take pictures, too. We then ate our sack lunches above the Mississippi River. It was a great field trip for our class! ~Mrs. Diane Davis

On Friday, October 14<sup>th</sup>, twenty-seven students—and almost as many chaperones—loaded the bus on a snowy, chilly morning and headed to the **Minnetonka Apple Orchard**. The excitement of the snow and school bus were almost as much fun as getting to spend the morning all bundled up in our snow gear at the orchard. When we arrived, we piled off the bus and climbed aboard two hay wagons which took us on a fifteen minute ride through the woods. The leaves were beautiful colors and the road took us past many different kinds of apple trees. After the hayride, we heard a presentation about how the apples grow and are harvested at the orchard. Then we each got a delicious apple to eat (and apple donuts to take back to school for snack time)!

The highlight of the trip was the play area! The children had fun climbing up a big hay mound and leaping down to the bottom. There were also slides, a tractor and toy train to stay busy playing on. We ate our lunches at the picnic tables and were happy to put our gloves and mittens back on afterwards to play for a little while longer before it was time to head back to school. Thank you to all the parents and grandparents who attended the trip with us! ~Mrs. Julie Roman

Mrs. Leanger's and Mrs. Cheek's first grade classes recently concluded a unit about community helpers by going on a field trip on October 26<sup>th</sup>. Our first stop was at **Feed My Starving Children**. We were able to bag thirty-six boxes of food for children in need. Our second stop was at **Blue Sun Soda Shop** where we were able to learn about the process of making and bottling soda pop. We even got to taste some unique flavors. The first graders were happy to personally experience being a community helper. ~Mrs. Kaycee Leanger

## Sportswalk 2022

This year was the return to walking around Medicine Lake! It had been a few years since we last were able to go out in our local community to for this successful fundraiser, but the Lord blessed some new relationships we made with the Plymouth Parks and Recreation Department, along with the Three Rivers Park district. They were very welcoming and helpful with our event. Praise the Lord, our students were able to raise over twelve \$12,000 this year! That money goes right back to our sports programs and can be seen in items such as: new volleyball jerseys, soccer balls, and volleyballs. It is also used to pay for officials, travel, hotel, and tournaments. We were also blessed this year by numerous donors who gave prizes for the students who raised the most funds. Addie Farish took home 4 tickets to a Timberwolves game. Christian Kolwinska, Eli Villar, Henry Baranyuk, and Neveah Carlson all won free tickets to an escape room at Mission Manor. Brianna Treptau received a \$100 gift card to Kwik Trip. Tiegna Treptau and Nathan Kauffman both received Insignia Bluetooth speakers. ~Mr. Clayton Morrison

## Grandparents & Parents Day 2022

FBCS celebrated Grandparents Day on Friday, October 21<sup>st</sup>. While this day is primarily geared to grandparents, we've invited parents for the last ten years or so to also join us on this special day. Our students and staff enjoy celebrating this day with parents and grandparents.

With a full house for breakfast, Mr. Hodak spoke about what makes Fourth Baptist unique and painted the landscape of Christian education and religious liberties in this country. Guests were dismissed to visit classrooms until the 10:00am program.

The senior high band began with an arrangement of *Fiddler on the Roof* followed by the Elementary Choir singing *The Cuckoo Clock Duet*. Mrs. Fredericksen led her K4 class in reciting 1 John 4:8 and singing *We are the Dinosaurs*, and the K5 students followed up with *Let's Go See Our Grandparents*. 2<sup>nd</sup> Grade presented *Survival Kit for Grandparents*, which brought the house to tears, and the 6<sup>th</sup> grade students presented their own original songs and poems. Our elementary, junior high and senior high bands and choirs showcased our music program, sharing what they've been learning and practicing this year. It was a very enjoyable day for all!

We are thankful for the role of grandparents in the lives of our students and in our school, and we appreciate all of the work by our teachers to prepare for this program. ~Mr. Andrew Broere
